

Can you help define the Triangle Community Garden's emerging Vision, Mission and Values?

Last week the trustees started to draft a vision, mission and set of values for the Triangle Garden. This is where they got to – it's very much a first draft.

Does this sound like the Triangle Garden to you? Let us know what you think – write suggestions on here, discuss amongst yourselves, give us your feedback via email or via Liz/Steve. We want to refine that start we've made below to make it a really strong description of what the TCG contributes.

Vision – a vision is what we want to see

Draft TCG vision: A community where all people lead more fulfilling lives through connecting with the natural world and understanding our place in it.

Mission – how we're going to make our vision happen

Draft TCG mission: Helping people of all ages and abilities lead more fulfilling lives, through gardening and connecting with the natural world.

We do this through:

- *Social therapeutic horticulture and healthy living programmes*
- *Volunteering opportunities*
- *Community events*

Values: these are the principles that guide our work

Draft TCG values:

- *Connect*
- *Grow*
- *Enjoy*
- *Respect/value*
- *Sowing the seeds of interest in gardening and the natural world*
